NORTHERN MEXICAN GARTERSNAKE

John reviewed Resolution 17-003 *LCR MSCP HCP Amendment – Addition of Northern Mexican Gartersnake*. John noted that letters had gone out to all Permittees and Parties to the LCR MSCP Implementing Agreement (IA) by May 31, 2017 notifying them that the resolution was intended to serve as an agreement of the Permittees and Parties to the IA to: authorize and direct the

Steering Committee Chair, acting on behalf of the Permittees, to submit to the U.S. Fish and Wildlife Service (USFWS), a request for an amendment to the section 10(a)(1)(B) Permit (Permit) to add the northern Mexican gartersnake, and to acknowledge that if the amended Permit terms and conditions were substantially similar to the proposed amendment, no Permittee or Party of the IA objects to the Resolution. John noted that no comments or objections were received by any Permittee or Party.

The Steering Committee approved Resolution 17-003 by consensus (moved by Maureen George, seconded by Doyle Wilson). The resolution directed the Steering Committee Chair, acting on behalf of the Permittees, to request an amendment to the Permit by submitting a Federal Fish and Wildlife Permit Application Form and all necessary documentation thereof, including the Draft HCP Amendment, to the USFWS. It also noted that the Permittees and Parties to the IA accepted the amended Permit, provided that the amended permit terms and conditions were substantially similar to the proposed amendment of the HCP.

John Swett reviewed the reconsultation steps and associated timeline. He noted that the processing of the Federal Register documents at the Washington D.C. level may take some time. It was requested that the dates for publication, once they are known, be sent out to the Steering Committee.

John Swett provided an overview of the Final Implementation Report. He noted that there were not a lot of changes from the draft to the final report. The requested approval amount for the FY18 Work Plan is \$33,496,740.
